

PLANT SAFETY

MODULAR GUARDING SYSTEM PROTECTS WORKERS AND EQUIPMENT

HUSKY'S INNOVATIVE DESIGN DELIVERS A SAFETY SYSTEM THAT CAN PROTECT PERSONNEL, REDUCE INJURIES AND MEET COMPLIANCE DEMANDS IN PLANT MANUFACTURING AREAS, WHILE HELPING TO IMPROVE EFFICIENCY AND PRODUCTIVITY.

PREWELDED CLIPS

Husky's guarding panels install quickly and easily in pre-punched posts.

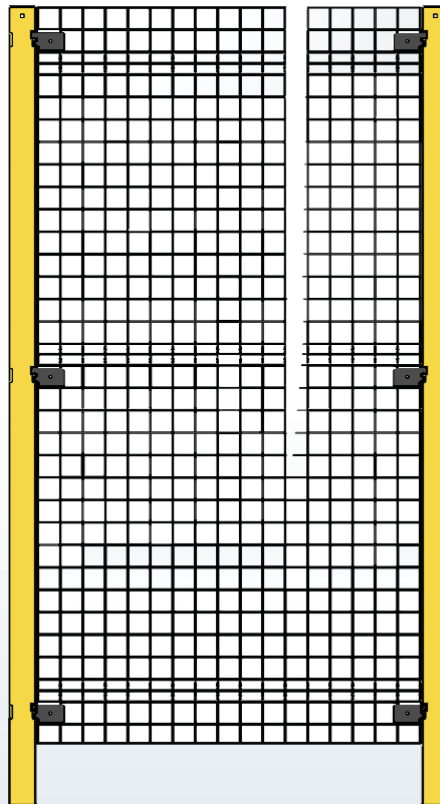

- Complete 6' and 8' high systems are available in our extensive 48 hour Quick-Ship program. Other heights are available on request.
- Husky's guarding meets all ISO10218, R15.06-2012 and CSAZ434 standards.
- Panels are 2" x 2" x 8 gauge welded wire with reinforcing flutes for extra strength.
- Husky's guarding system makes it easy to rearrange, access or expand enclosures
- Best value in the industry

CUT-TO-FIT PANEL FOR IN-THE-FIELD CUSTOMIZATION

Stock panels can be shortened in width by using a XGBC Kit, which contains bolt-on clips to replace the standard welded clips.

1. Simply cut the panel to remove the excess width. Panels can be cut with 2" adjustability.
2. Replace the welded clip with the two-piece bolt-on clip. Each XGBC kit includes 3 left-hand and 3 right-hand clips. One kit can modify both the upper and lower panels on an 8' high system and 2 panel sections on the 6' high system.
3. The clips are attached to the panel with special breakaway nuts. Once the clip is assembled, it is permanently in place.

CHALICE BOLT AND BREAKAWAY NUT

Front

Back

- Protect Workers & Visitors from Entering Dangerous Areas
- Cut-to-Fit Openings for In-the-Field Customization

- Sliding Doors for Complete, Open Access
- 6 & 8 Foot High Panels Available
- Special Application Doors
